

## **Home Battery Scheme Subsidy, May 2019**

Selectronic Certified Fronius 5kw inverter

Selectronic SP Pro 5kw battery inverter

BYD 13.8kwh battery

With 6.4kw of solar panels

We have just had a Hybrid Solar Power System installed through TFA Solar. Peter has connected the system today whilst we were out. On our return from the city we did notice that Peter had been and gone.

Everything looks neat inside the little shed and the lights on the display are shining brightly.

We are happy to see the installation completed and we are more than satisfied with the work. Indeed, we shall miss the smiling faces of Peter and Mike.

Please convey our thanks to all concerned.

Anne and Kent
